Frank Bonesteel, Chair
Nevada Site Specific Advisory Board
100 N. City Parkway, Suite #1750
Las Vegas, NV 89106

RESPONSE TO THE NEVADA SITE SPECIFIC ADVISORY BOARD (NSSAB)
RECOMMENDATION FOR TEST CELL C PATH FORWARD (WORK PLAN ITEM #3)

Reference: Ltr Bonesteel to Gamero, dtd 11/20/2019

I would like to thank the NSSAB for its support of the plan for the end state for the remaining Test Cell C structures in the above-mentioned letter. The U.S. Department of Energy (DOE), Environmental Management (EM) Nevada Program appreciates the time that the NSSAB spent in touring the Test Cell C complex in October 2019 and for its review and discussion during the NSSAB Full Board meeting in November 2019 regarding the Department's planned closure activities for the remaining structures, including decontamination and decommissioning to slab of the remaining structures and the subsequent disposal of the generated waste.

The DOE EM Nevada Program appreciates the support of the NSSAB in this endeavor and the efforts made by the Board to provide recommendations. As always, the NSSAB's input is valued and your efforts are greatly appreciated.

If you have any questions or comments, please contact Kelly K. Snyder at (702) 724-0834.

A handwritten signature in black ink, appearing to read 'Tiffany Gamero', with a long horizontal line extending to the right.
