

Nevada Site Specific Advisory Board

January 18, 2017

Mr. Robert F. Boehlecke
Environmental Management Operations Manager
U.S. Department of Energy, Nevada Field Office
P. O. Box 98518
Las Vegas, NV 89193-8518

SUBJECT: Recommendation for Corrective Action Alternatives for Corrective Action Unit 576, Misc. Radiological Sites and Debris (Work Plan #1)

Dear Mr. Boehlecke:

The Nevada Site Specific Advisory Board (NSSAB) was asked to provide a recommendation, from a community perspective, to the U.S. Department of Energy (DOE) on which corrective action alternative should be selected by the Nevada Field Office for Corrective Action Unit (CAU) 576. The NSSAB considered the Corrective Action Alternatives of clean closure or closure in place with use restrictions as identified in the Federal Facility Agreement and Consent Order.

The NSSAB received a briefing at its January 18th Full Board meeting on the work plan item. After all questions were answered and extensive dialogue concluded, the NSSAB recommends the following corrective action alternatives:

| Site | Corrective Action Alternative Recommended by NSSAB |
|---|--|
| Kennebec (CAS 02-99-12) | Clean Closure |
| Rad Waste Legacy Site (CAS 05-19-04) | Clean Closure |

Thank you for the opportunity to provide a recommendation on the Corrective Action Alternatives for CAU 576. Also, thank you to Tiffany Lantow, DOE Soils Activity Lead, for her presentation and for answering questions on the work plan briefing.

Sincerely,

Steve Rosenbaum, Chair
