December 1, 2021

Frank Bonesteel, Chair
Nevada Site Specific Advisory Board
100 N. City Parkway, Suite #1750
Las Vegas, NV 89106

RESPONSE TO THE NEVADA SITE SPECIFIC ADVISORY BOARD (NSSAB) RECOMMENDATION FOR CORRECTIVE ACTION UNIT (CAU) 114, AREA 25 ENGINE MAINTENANCE ASSEMBLY AND DISASSEMBLY (EMAD) FACILITY DISPOSAL OPTIONS (WORK PLAN ITEM #3)

Reference: Ltr Bonesteel to Boehlecke, dtd 11/17/21

I would like to thank the NSSAB for its review of the CAU 114, Area 25 EMAD Facility Disposal Options work plan item #3 in the above-mentioned letter. The U.S. Department of Energy (DOE) Environmental Management (EM) Nevada Program appreciates the time that the NSSAB dedicated to reviewing and discussing recommendations on what facility disposal option (i.e., on/near project site, or in Areas 3/5/9) would be preferred for planned demolition and closure activities at the EMAD Facility.

The DOE EM Nevada Program appreciates the support of the NSSAB in this endeavor and the efforts made by the Board to provide this recommendation to accept Navarro’s recommendation for disposal at Areas 3, 5, and 9 for the respective waste types as regulatorily required. The Program will consider the NSSAB’s recommendation as it evaluates the path forward for demolition and closure of the EMAD Facility.

As always, the NSSAB’s input is valued, and your efforts are greatly appreciated. If you have any questions or comments, please contact the NSSAB Office at (702) 523-0894.

Robert Boehlecke
