Action Items

Assigned: Don Van Etten, RSL. Paul Charp, CDC asked why he was receiving emails on FRMAC Liaison training being due. Short answer is all interagency staff that attended a DOE sponsored LN-100/LN200 Liaison training was placed in the DOE response database. If in the unlikely event of a real FRMAC the database would be used to request trained responders. The training reminders are automatically sent by the database as you approach the due date for refresher. We are reviewing the policies in the database and a notice will sent out explaining any required response.
