**Nevada National Security Site Security Contract Awarded;
*SOC LLC Awarded Contract***

The U.S. Department of Energy's National Nuclear Security Administration (NNSA) has selected SOC LLC for award of a contract for security protective force and system services at the Nevada National Security Site (NNSS) and the NNSA Nevada Field Office (NFO) operated facilities. The contract has an estimated value of \$202.94 million over 5 years if all options are exercised.

SOC LLC will provide security related work at the NNSS and for NFO operated facilities in North Las Vegas and Nellis Air Force Base. This includes facility protection, patrol services, and protection of nuclear materials associated with the national stockpile stewardship experiments and criticality safety training conducted at the NNSS.

Award date of this contract is May 30, 2017, with transition completion on July 31, 2017. SOC LLC teamed with Protection Strategies Inc. (PSI), Longenecker and Associates, and MCH Corporation. Under this arrangement, PSI will provide performance testing and assessment and Human Reliability Program support. Longenecker and Associates will provide services in the area of contractor assurance and Environment, Safety and Health. MCH Corporation will provide IT services support.
