## **Suspicious package at NNSA North Las Vegas facilities determined to be cell phone**

**NORTH LAS VEGAS** – After a thorough investigation, local law enforcement has determined the contents of a suspicious package delivered to the NNSA North Las Vegas facilities was an operational cell phone and charging cord.

There are no further concerns with the package, and the requirement for employees to remain indoors has been lifted.

There was no impact to operations at the North Las Vegas facilities.

### **NR-18-0013**

The Nevada National Security Site and its related facilities help ensure the security of the United States and its allies by: supporting the stewardship of the nation’s nuclear deterrent; providing nuclear and radiological emergency response capabilities and training; contributing to key nonproliferation and arms control initiatives; executing national-level experiments in support of the National Laboratories; working with national security customers and other federal agencies on important national security activities; and providing long-term environmental stewardship of the NNSS’s Cold War legacy.

The NNSS is managed and operated by Mission Support and Test Services LLC (MSTS). MSTS is a limited liability company consisting of Honeywell International Inc., Jacobs Engineering Group Inc., and HII Nuclear. The NNSS falls under the jurisdiction of the National Nuclear Security Administration (NNSA), an agency within the U.S. Department of Energy. The Site’s operations are government-controlled and contractor-operated, and are overseen by NNSA’s Nevada Field Office, headquartered in North Las Vegas.

For more information on the NNSS, visit [www.nnss.gov](http://www.nnss.gov).
